

WE CREATED POKHRAN ROAD 2's
FINEST RESIDENCES.

**AND RAISED THE
BAR AGAIN.**

Courtyard created a stir when it launched its first phase in 2016, which quickly became the preferred residential development in Thane. With its sprawling 4 acre central green, 4 pools, exceptional clubhouse and open views of the Yeoor Hills, there was nothing else quite like it.

Naturally, the sequel had to be better than the original. With our uncompromising approach to building residences, Narang Realty and The Wadhwa Group are pleased to present the next phase, Asteria by Courtyard.

ASTERIA BY COURTYARD:

THE NEW HEIGHT OF
LUXURY LIVING IN THANE.

Two new landmark towers will rise to overlook the Courtyard central green. The crowns at the very top of Asteria mark these towers out as the most premium in the development.

These twin towers are an extension of Thane's most sought-after residential development at Pokhran Road 2. The towers offer premium 2, 3 and 4 bed residences, along with an exclusive club level, spread over 30,000 sq. ft.

Exclusive car drop off leads to the grand entrance lobby.

**IF YOU'RE SEEKING
A SUPERLATIVE LIVING EXPERIENCE,
YOU JUST FOUND IT.**

Asteria presents everything you need to live a lifestyle beyond compare: from the 30-foot-tall entrance lobby that greets you, to lavish amenities, to your gracious residence overlooking greenery.

A 30,000 sq. ft. club level, with an infinity swimming pool, games room, club lounge, hosting and dining areas, state-of-the-art gymnasium is exclusively for the use of Courtyard Asteria residents.

Generously sized 2, 3 and 4 bed residences with higher ceilings, larger balconies and full-height windows give you a sense of ample space, light and air. Luxurious finishes with marble floors and premium fittings grace every inch of these beautiful residences.

**YOUR GRAND RESIDENCE:
AIRY, SPACIOUS, AND
IMMACULATELY FINISHED.**

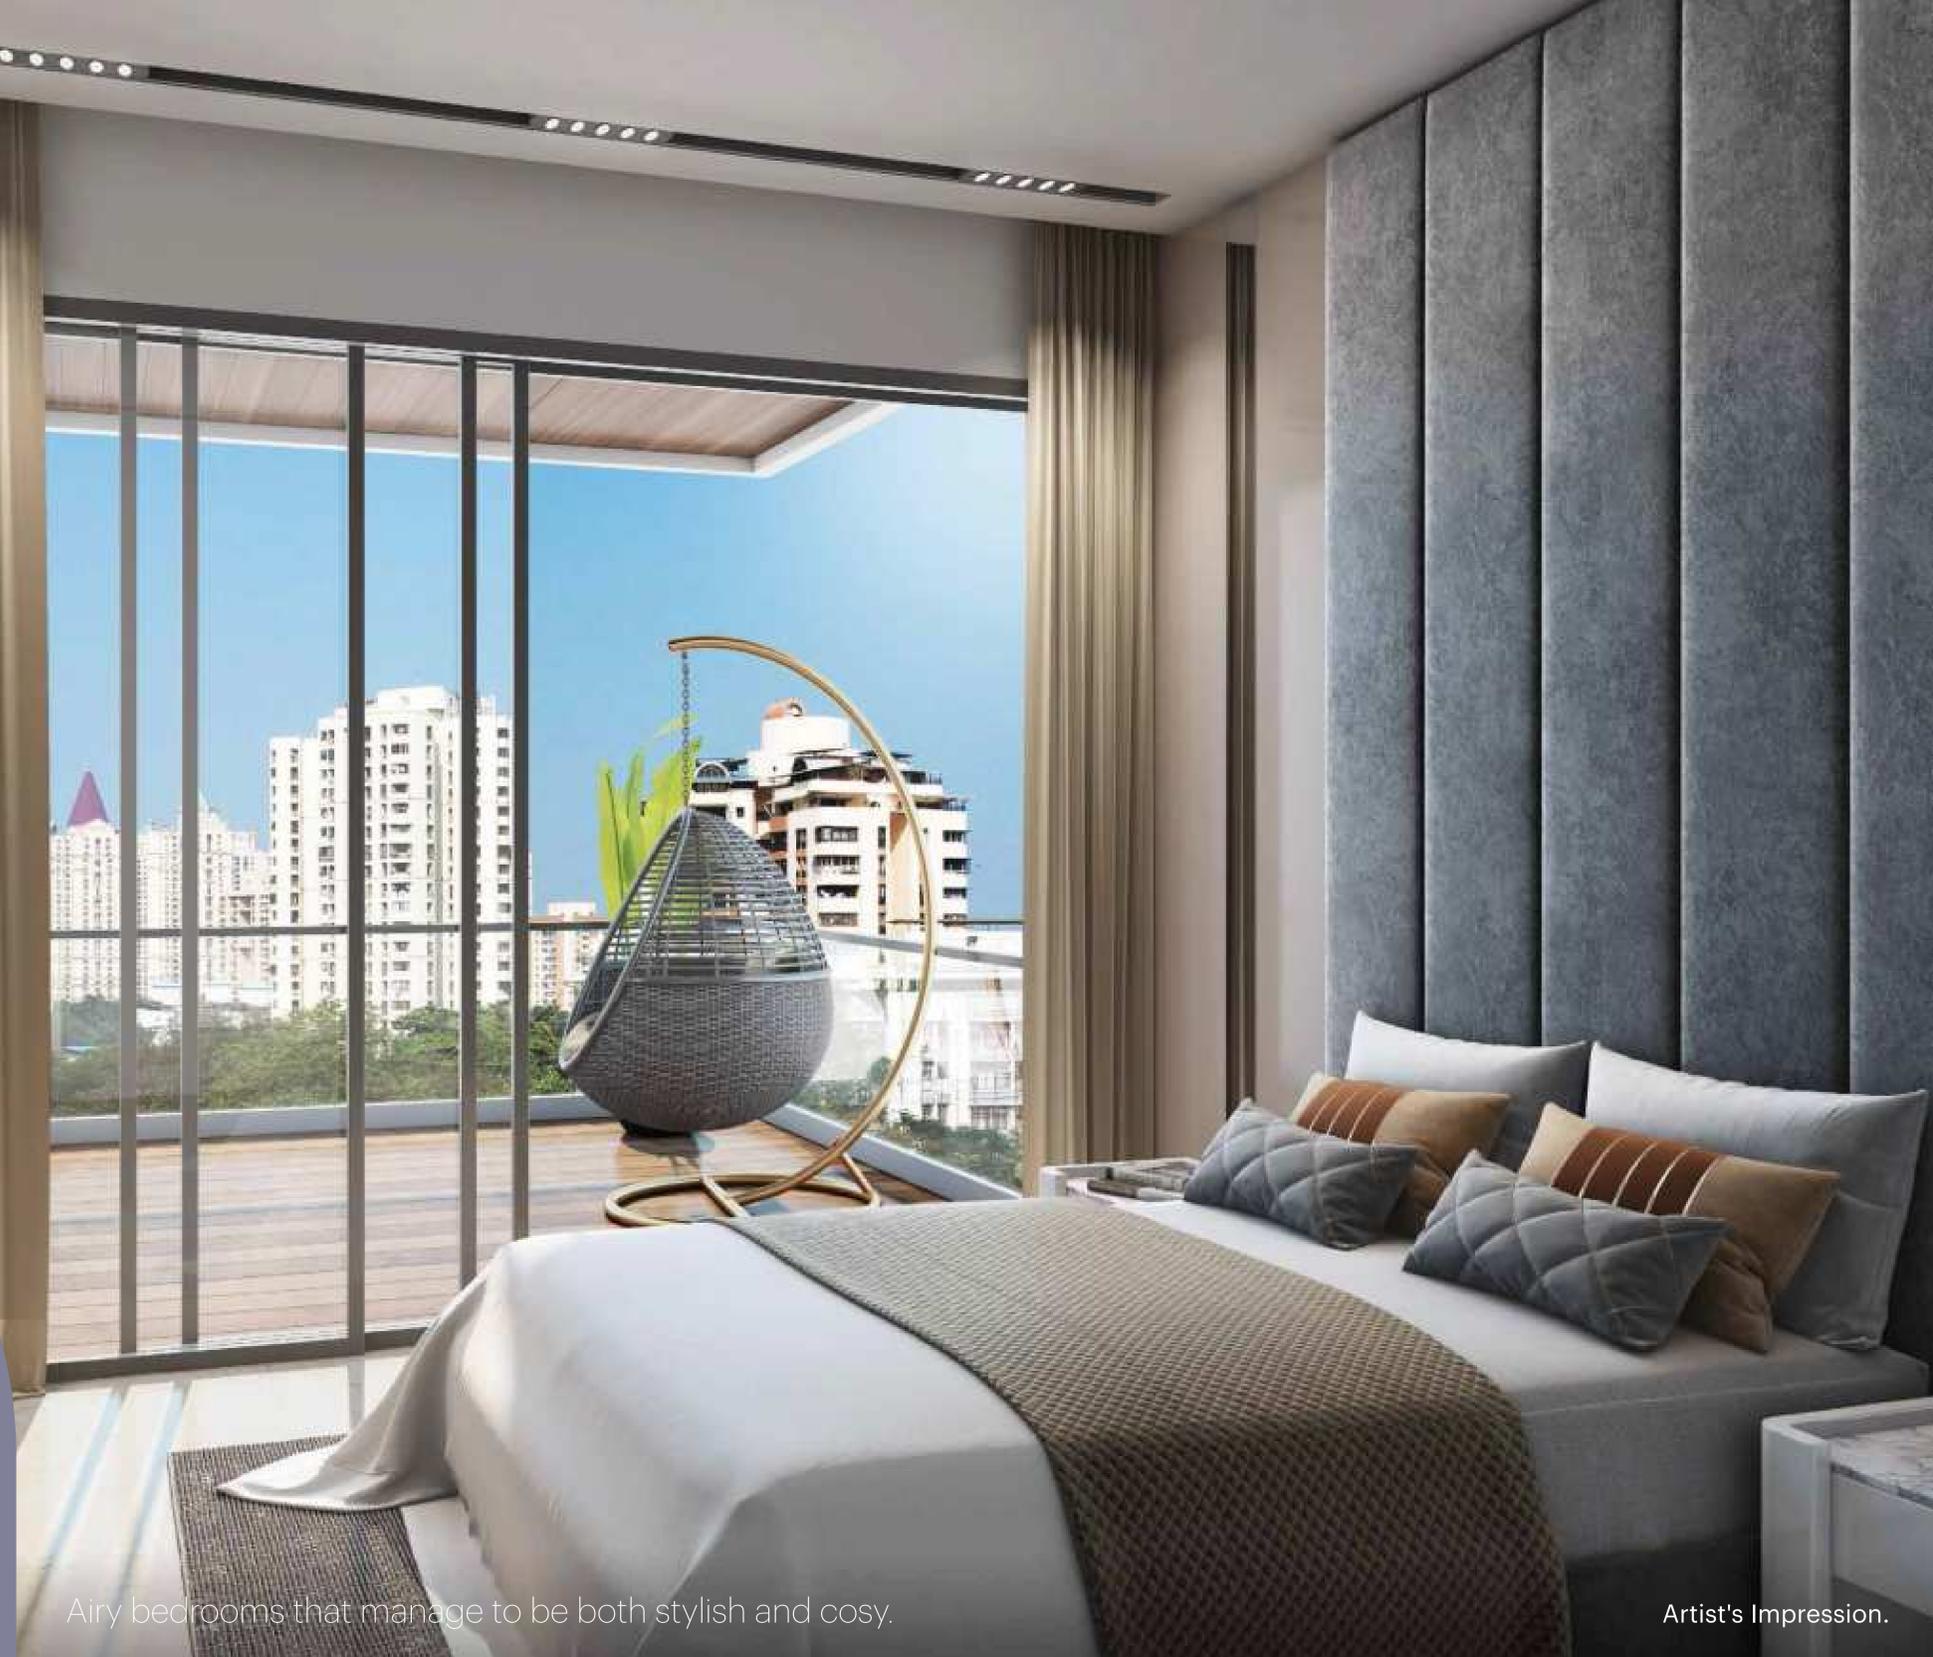

Living rooms that come with a priceless work of art: a view of the hills.

Artist's Impression.

Asteria by Courtyard offers substantially larger residences, with more generously-sized decks, superior finishes and higher floor-to-floor height than the rest of Courtyard.

The layouts have also been improved to increase the sense of space, privacy and ease of everyday living. Larger window area helps to maximise light and ventilation.

Airy bedrooms that manage to be both stylish and cosy.

Artist's Impression.

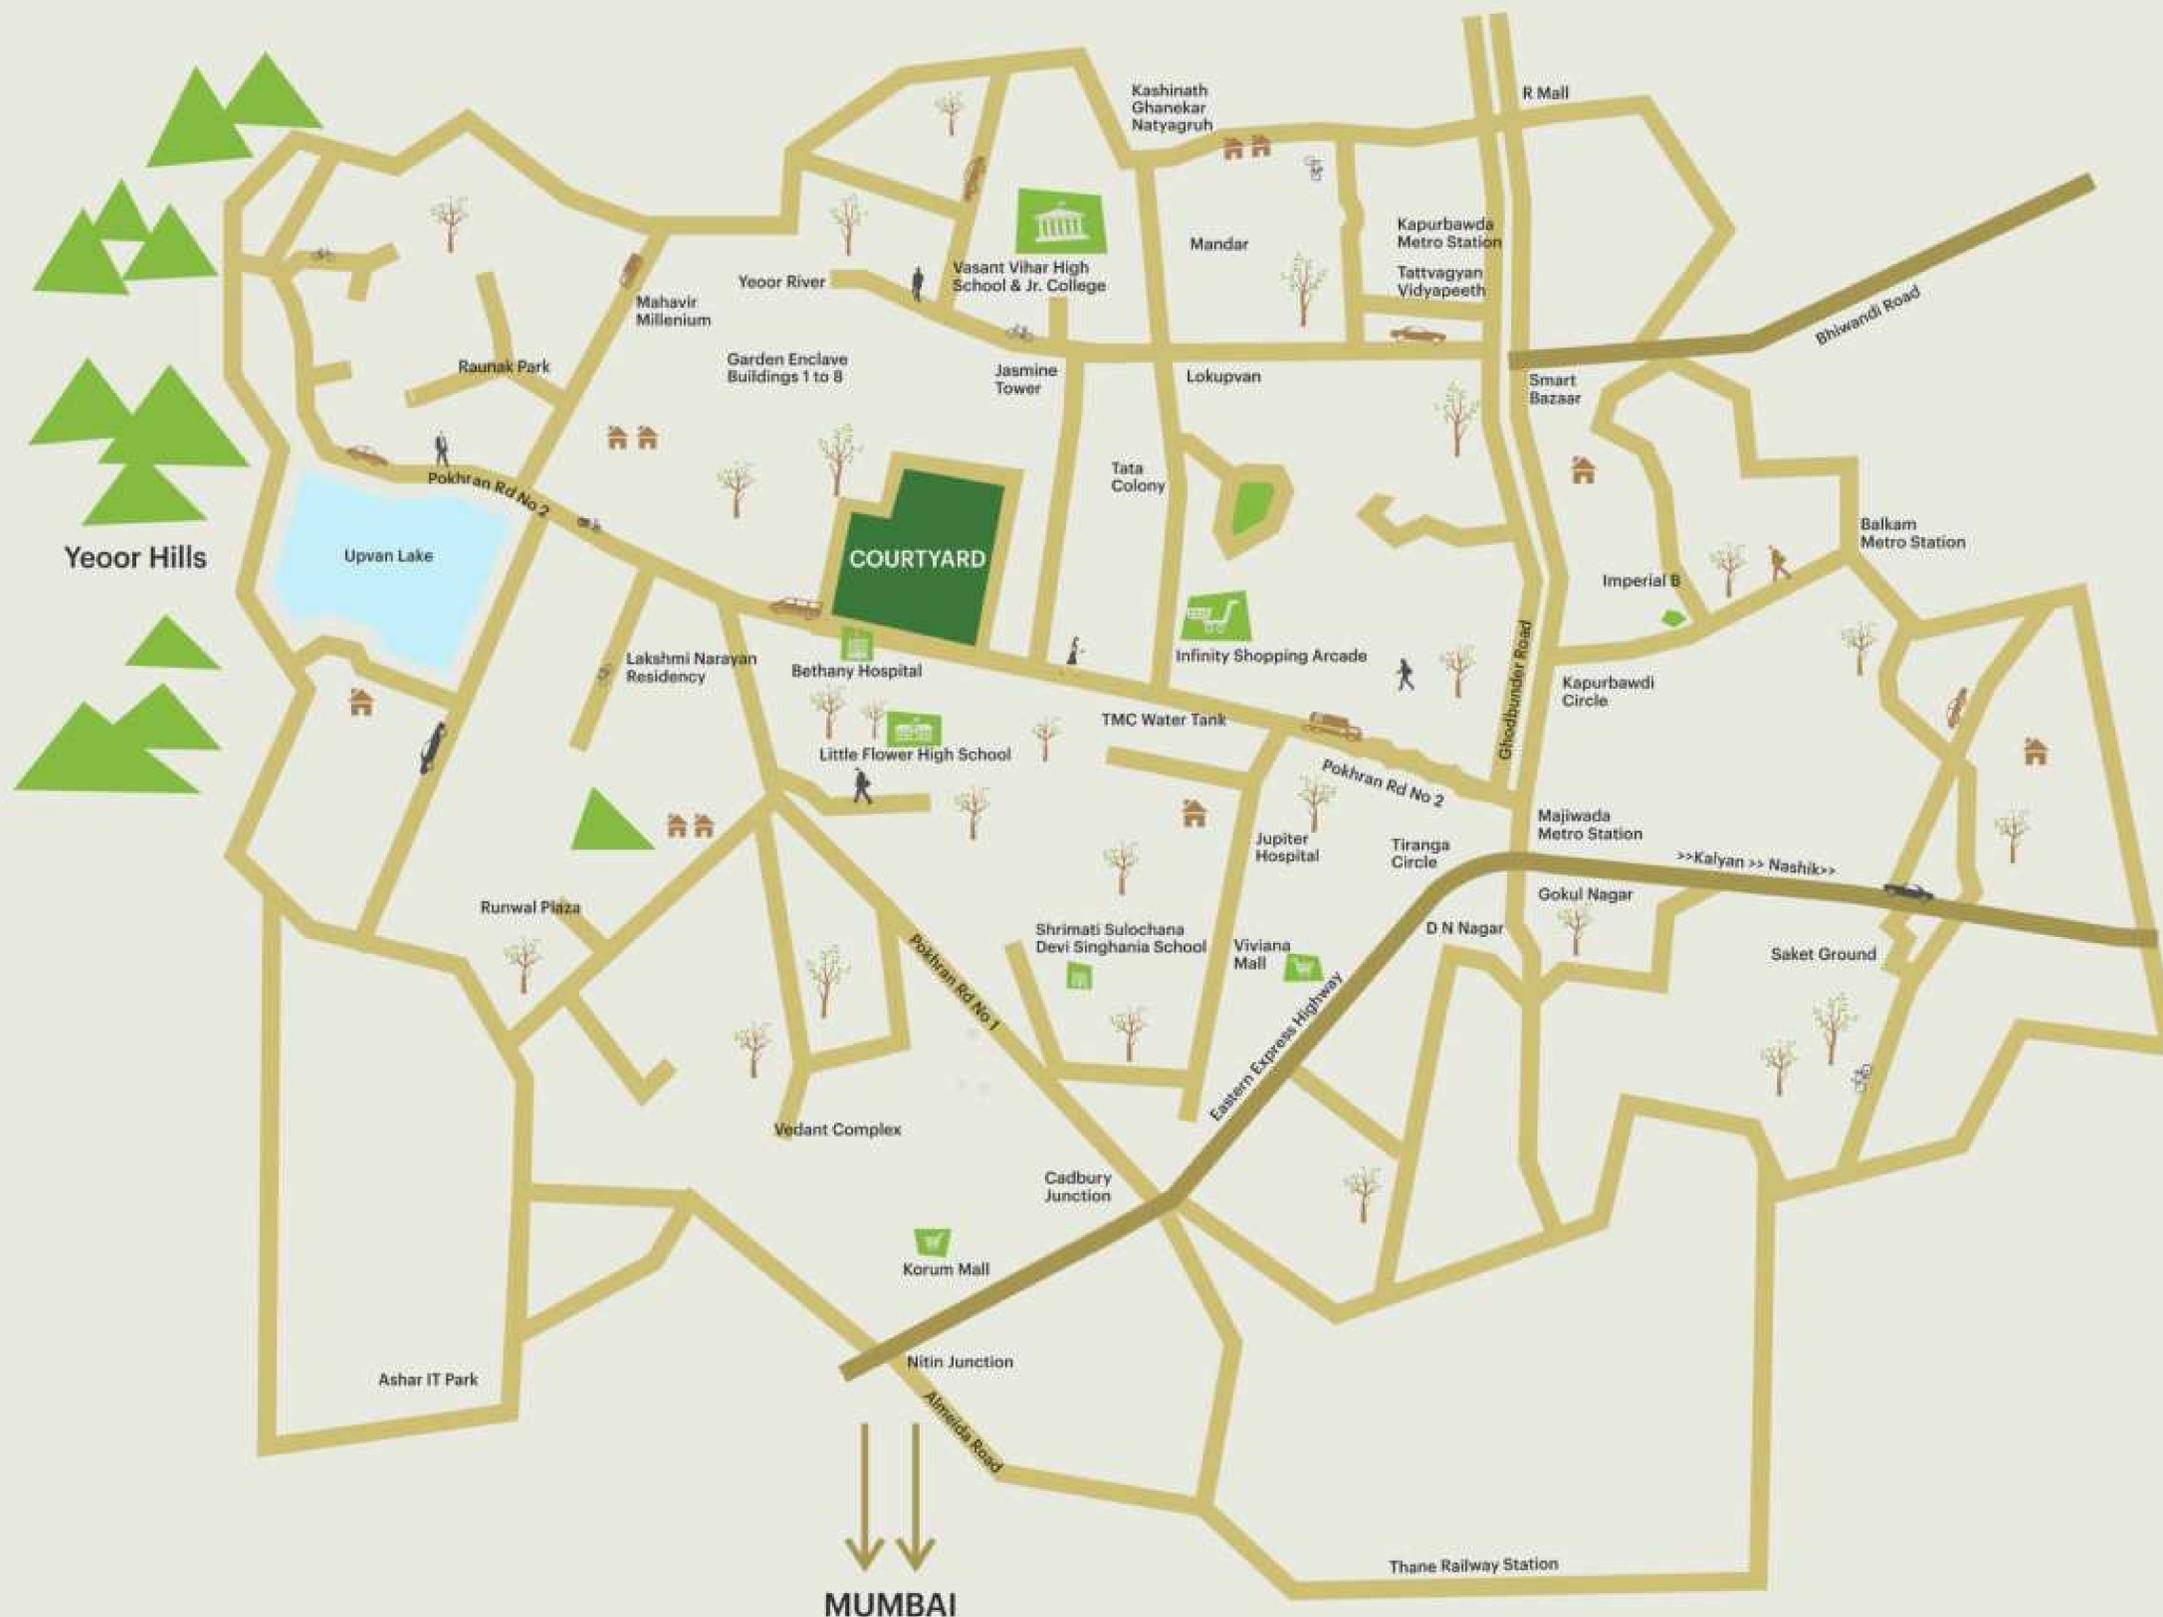

Courtyard is located at Pokhran Road 2, Thane's most premium residential locality. Just half a kilometre from the Yeoor Hills, this gated development puts you close to Mumbai's largest green zone, within easy reach of Thane's finest schools, hospitals, malls and restaurants, while offering seamless connectivity to Eastern Express Highway, Eastern Freeway and LBS and JVLR. Two new upcoming metro stations are located within 2 km of the project. It's no wonder the property prices keep appreciating here, year-on-year.

ARCHITECT'S SPEAK

Mr. Brendon Chamberlain
Ao Design Company
Landscape Design

The landscape of Courtyard is designed to create a sanctuary of green foliage that enhances the lifestyle of residents. It is a space that provides escape from the bustling world outside while also providing habitat for native flora and fauna. The unique amenities, from the multiple swimming pools, shade pavilions, kids play zones and sport facilities are all intended to give a holistic experience and healthy living environment. We believe the residents will want to spend as much time outside socialising or relaxing in a quiet moment as they do inside the bespoke apartments.

Mr. Kiran Kapadia
Kapadia Associates Design LLP
Project Design

The two premium towers are designed to be truly aspirational. The passion and commitment of the developers is evident in the design and detail of every element to bring both joy and value to the residents.

The towers which face the verdant central green are lifted off the ground on a two level podium which creates an active retail frontage for the development. The podium top is a high quality amenity space with a host of exclusive indoor and outdoor recreational facilities. The residential units are sensitively designed to maximize light and ventilation for all habitable spaces, while minimising corridors & common areas.
