NARANG PRIVADO.
7 ACRES OF
LUXURY LIVING,
JUST OFF
POKHRAN ROAD - 1.

A tree-lined pathway winds through this lush, forest-themed podium.

An aerial view of a modern residential complex. In the foreground, a large, well-maintained lawn is bordered by a paved walkway. To the left, a two-story clubhouse with large glass windows is visible, showing an interior with tables and chairs. The lawn is surrounded by various tropical plants, including palm trees and flowering shrubs. In the background, a dense urban landscape with high-rise buildings is visible, set against a backdrop of green hills under a clear blue sky.

Narang Privado is not just a home; it's the perfect balance of city life and tranquility. A 7-acre residential oasis, hidden in the middle of the city.

Expansive lawns connect residential towers to the clubhouse.

The sound of liltng water relaxes poolside visitors.

Winding walkways fringed with lush trees. Private corners where you can reconnect with yourself. Plenty of fresh air, light and space to find inspiration every day. It's an environment that restores delights and energises.

“When you actually come in, you don’t feel like you’re going into a residential project, you feel like you’re going into a resort.”

- **Kiran Kapadia** | Principal Architect, Kapadia & Associates

ARCHITECT'S SPEAK

KAPADIA ASSOCIATES
architecture • urban design

Kiran Kapadia
Founder Director
KAPL

The project aims to create an urban resort experience. From the moment you are dropped off at a resort and begin your journey there until you leave, there are no cars to be seen. Thus, the inside and outside have kind of blended together to create a very similar kind of motif. The elevation of the towers have been inspired by iconic buildings in New York. Someone will be able to identify them from afar. Narang Realty looks at, every project, like a boutique project, because their pedigree has been one of doing high-end boutique projects.

Sharookh Mehta
Founder
MEDESA

The theme of the clubhouse is of style and elegance, focusing on young people coming and staying in Thane, a changing area with sophisticated residential complexes. They've travelled, seen a lot, and been exposed to a lot. So, we aim to provide something that complements their expectations. The type of work that Narang Realty do is very sensitive to the requirements of their clients.

Sherman Stave
Principal and Landscape Architect
STXLA

The project was a large, open canvas with a focus on creating a distinctive landscape based on pattern language. We wanted to make sure that whatever we did for this project was going to differentiate it from the rest of the marketplace. Narang Realty has been very supportive and they have really embraced the ideas that we have brought to the project.
